

NEW FORMULAS

ActivEssentials™ with Calcium ActivEssentials™ for Women

ActivEssentials with Calcium™ is a combination of four targeted nutritional formulas packaged together to provide convenience and comprehensive nutritional support.†

• **Activ Nutrients without Iron™**: a high quality, hypoallergenic, proprietary multivitamin mineral blend featuring activated vitamin co-factors and patented Albion® chelated mineral complexes in easy to swallow vegetable capsules. This formulation is specifically designed to maximize energy and optimize body composition by providing therapeutic levels of specific nutrients for insulin/glucose utilization.†

• **OmegaPure 300 EC™**: an ultra-pure, cold water fish oil sourced from the arctic waters of Norway. This highly concentrate and cholesterol-free natural oil provides 300 mg of EPA and DHA omega 3 fatty acids, which are a critical component to any foundation nutrition program. OmegaPure 300 EC™ is stabilized with mixed tocopherol vitamin E to maximize freshness. For optimal compliance and absorption, it has been provided in a pleasant smelling enteric-coated softgel.†

• **Oraxinol™**: an innovative blend of standardized RosemarinX™ and Ben-X™ ORAC botanicals. ORAC (Oxygen Radical Absorption Capacity) is a rating developed by the National Institute of Aging and standardized by the USDA. It is a measurement of antioxidant capacity found in fruits and vegetables. An ORAC rating of 6000 TE as found in 2 capsules of Oraxinol™, has been shown to have the antioxidant equivalent of 5-9 servings of fruits and vegetables and may help to minimize the effects free radicals may have on aging.†

• **Disapan™**: Featuring calcium rich MCHC (Microcrystalline Hydroxyapatite Concentrate), a complex crystalline compound, composed primarily of calcium, phosphorus, organic factors, protein matrix, growth factors and a full spectrum of trace minerals that naturally comprise healthy bones.†
